I loved the Sonrise Stable Writing Lessons! I used to write quick, not very good stories, but now I am a plotter, not a panster, as it says in the lessons. Instead of writing stories start to finish, not usually knowing the ending untill I got there, I can lay-out my ideas and write longer, better stories. Let me tell you, it works a lot better. The last few classes were about grammar and publishing (websites) which I don't really need right now (I'm in 6th grade) but I know it will be really useful in the future. At school we learn about writing, but not as in depth and fun as these! It works for all ages and kept my attention. The online portal was really easy to use and I always looked foward to doing it. I learned a whole lot more about writing then I probably would've ever if I didn't do the lessons. Mrs. Watson was very funny and I loved all the little pictures throughout the class. If I could, I would not change anything about the class. I really loved this class, and if you take it I'm sure you'll love it too!

-Ellie

P.S. If you have not already, check out her books. They're really good!
